

THE SLEEP-FRIENDLY LIGHT THAT LOOKS AS GOOD AS IT FEELS

We designed Soraa HEALTHY™ lamps with our unique Soraa ZEROBLUE™ technology, which means your body recognizes the time for sleep as nature intended. Evenings are more restful, your body relaxes, and sleep comes more easily.

SORAA ZEROBLUE TECHNOLOGY

Soraa HEALTHY lamps have no blue content in the spectrum (as opposed to just dimming the light and producing a warmer tone) so there is no overexposure to blue light in the evening which can negatively impact our sleep cycles and longer-term health.

Soraa's patented ZEROBLUE technology advances LED science by creating an emitter of high-quality white light without blue radiation. Based on Soraa's world leading violet LEDs, Soraa combines an engineered mix of green and red phosphors to produce a spectrum with a wide gap in the blue range.

Soraa HEALTHY lamps not only provide circadian-health benefits of no blue content to support better sleep and healthy environments, but they also retain a beautiful, white light quality, making these lamps functional for any space.

FLICKER

Soraa lamps demonstrate low levels of flicker in both dimmed and undimmed states.

THERMALLY COMPATIBLE
