

## SORAA MR16 12V 7.5W & 9W - TRANSFORMER COMPATIBILITY LIST - International

Transformer compatibility applies to lamps with date code 1626 and greater. Location of lamp date code is shown at the end of this document. Contact [techsupport@soraa.com](mailto:techsupport@soraa.com) for compatibility of lamps with earlier date code.

**PASS** - The transformer supports one or more lamps up to the maximum wattage;

**NC** - SORAA does not recommend this transformer for use with its lamps;

**2 Lamp Min** - The transformer supports two or more lamps upto the maximum lamp wattage limit;

**3 Lamp Min** - The transformer supports three or more lamps upto the maximum lamp wattage limit

### Notes:

Compatibility tests are conducted by Soraa under bench conditions as guidance for the user; results at the application site may differ due to variability in usage conditions or in transformer components/manufacturing

If the transformer's minimum wattage is not met, the lamp may only operate under nominal conditions (nominal line voltage and thermal conditions where the lamp is at full power).

If the transformer is not listed, please consult with Soraa before making recommendations to the end customer

Above table is for applications where no dimmer is used. If a dimmer is used, the user should consult the Dimmer/Transformer table, or contact Soraa if their desired combination is not listed.

← Date code is printed directly below the 2D barcode on lamp base
