

• Read all instructions carefully before installing.

• Ensure that power is off on the main panel before starting installation or performing any maintenance.

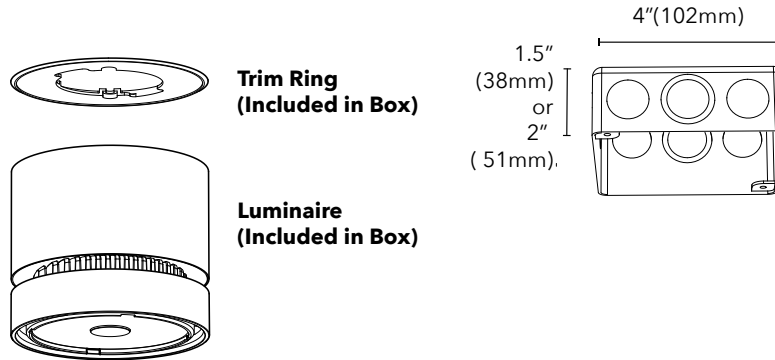

• Do not install this lighting system in a wet location.

• Do not install any fixture closer than 6 inches from any curtain or combustible material.

• Make sure all screws are properly tightened.

• Supply and install correct Junction Box and Device Cover as indicated at right before final installation of luminaire.

## YOU WILL NEED:

**4" Junction box  
1-1/2" or 2" deep  
(Not Included in Box)**

## Surface Mounting

**Step 1.** Install J-box in ceiling. Pull wires through ceiling opening. Install trim ring and attach to J-box with screws (Fig. 1).

**Step 2.** Attach luminaire to trim ring safety harness with carabiner clip (Fig. 2).

**Step 3.** Connect black and white line voltage and green ground wires from luminaire to line voltage and ground wires from J-box, and connect dimming wires from ceiling to corresponding wires from luminaire if required (Fig. 3). Driver accepts 120VAC input.

**Step 4.** Insert luminaire into trim ring (Fig. 4). Push up and turn luminaire clockwise (Fig. 5) until you hear a distinct click indicating that tabs are locked into position as shown in Fig. 6.
